MEMORANDUM FOR: DDI Planning Officer

ATTENTION: [REDACTED] 25X1A9a

SUBJECT: OBGI Review of Item Register Descriptions

1. The first 6 items have been corrected and/or amended as required.

2. Three additional inputs are attached covering Map Notices, NIS Production Status Reports, and the Basic Intelligence Factbook.

3. It is recommended that you eliminate all other OBGI items (separate sheet for each NIS area) from the Register and let the new item (NIS Production Status Report) substitute. It is more informative and efficient.
